

BEEF EXTRACT POWDER

Purified neutralised and standardised extract of beef

DESCRIPTION

Beef Extract Powder is a purified and standardised extract of beef. Used with meat and casein peptones as a source of nutrients in culture media for microbiology. At a final concentration of 0.3-0.5% it gives clear aqueous solutions, not requiring filtration.

TYPICAL ANALYSIS

Total Nitrogen (TN) 12.5 %
Amino Nitrogen (AN) 2.5 %
AA/AT x 100..... 20
Sodium Chloride 5.7 %
pH 1% Solution 7.3
Performances in microbiological culture media.....passes test
