

SODIUM PYURUVATE

Sodium pyruvate , bacteriological grade.

DESCRIPTION

Sodium pyruvate is used in culture media to improve the growth performances of Staphylococci and other bacteria

TYPICAL ANALYSIS

Appearance	white crystalline powder
Assay	100 %
Water	≤0,5 %
Melting point	95,0 - 98,0 C°
Chloride (Cl)	< 30 ppm
Heavy metals	< 10 ppm
Sulphates	< 100 ppm

PACKAGING**41BAS0772****Sodium pyruvate,****500 g**
